Please READ and SIGN below

A radon test is currently in progress in this building.

During the test, CLOSED BUILDING CONDITIONS must be maintained, if Closed Building Condition protocols are not followed during the test, the results of the test will be invalid.

If CLOSED BUILDING CONDITIONS are begun 12 hours prior to the start of the test, a minimum of 48 hours of data will be collected; if CLOSED BUILDING CONDITIONS do not begin until the start of the test, the test will be extended to at least 60 hours in duration.

Regardless of the required minimum test duration, CLOSED BUILDING CONDITONS must be maintained until the monitors are retrieved. The test is not concluded until the equipment is removed by a representative of **Sample Radon Company, Inc..**

CLOSED BUILDING CONDITION REQUIREMENTS

- All windows in the house (including the basement) must be kept closed.
- All doors leading to the outside must be kept closed, except for normal entry and exit (60 seconds or less).
- Heat and air conditioning may be used, with the fan in the AUTO mode.
- Whole house fans should not be used.
- Ceiling fans, portable dehumidifiers and air filters should not be used within 20 feet of a monitor.
- Fireplaces should not be used during the test period and the flu damper should be kept closed.
- Dryers, range hoods and bathroom exhaust fans can be used in moderation.
- If your home has a radon mitigation system, the system shall be running for at least 24 hours prior and continuously during the testing period.
- All accessible basement windows have been sealed with anti-tamper tape that must remain intact if this test is to be considered valid by the Department of Nuclear Safety Standards.
- If the home is unoccupied, the heating or air conditioning system must be set to maintain a constant temperature within +/- 5°F of 72°F.

Please note:

We will make an appointment with _____ to pick up the monitor(s) on _____.

The Department of Nuclear Safety requires the buyer, seller, occupant, real estate professional or other individual in control of this property certify that the following:

1. Closed Building Conditions as described above have been maintained during the test period.
2. The monitor has not been knowingly tampered with or influenced during the test period.
3. I will notify **Sample Radon Company, Inc..** at (877) 997-2366 immediately if any of the above conditions have not been met or maintained.

Address of tested Building: 1234 Sample Street, Any Town, IL 61234
